

# HARVEST-TIME® U-TROUGH UNLOADING SYSTEM

## Offers 40% More Unloading Capacity Than 10-Inch Auger Tube Systems

Brock's HARVEST-TIME® 10-Inch (254-mm) U-Trough Auger and Power Sweep Unloading System with a capacity of up to 7,800 bushels (198 metric tons) of corn per hour offers you up to 40% more grain moving capacity than 10-inch (254-mm) diameter tube systems. It's a heavy-duty system you can grow with, plus get the same great advantages offered by Brock's HARVEST-TIME Tube Auger Unloading System:

- Smooth-working unloader and sweep combination that can be operated from outside the bin, or ...
- An unloader that can be used with a center pivot to connect to an existing portable sweep.

Cross Section View Of HARVEST-TIME® 10-Inch (254-mm) U-Trough System
